GLOBAL READY (RTL & LTR)

INVESTMENT RATIONALE

The \$300,000 Replacement Cost & Instant Time-to-Market

Why buying Nizalo today is substantially more cost-effective and risk-free than building in-house.

✗ Building From Scratch (10-12 Months)

- Engineering Team Overhead:** Requires 2 Senior Full-Stack Engineers (\$200k), 1 Game Networking Specialist (\$80k), and 1 UI/UX Designer (\$50k).
- Total Capital Invested:** Easily exceeds \$320,000 - \$360,000 in payroll alone before launching a single line of code.
- Technical Execution Risk:** High probability of WebSocket state desync, concurrency locks, and latency lag.
- Lost Market Opportunity:** 12 months delay while competitors capture high-growth regional markets.

✓ Acquiring Nizalo Today (\$300k Turnkey)

- ✓ Instant Time-to-Market:** Day-one deployment. Connect your traffic and start monetizing immediately.
- ✓ Zero Balance Sheet Risk:** 100% P2P matchmaking model. The house never bets against players; revenue is pure rake.
- ✓ Autonomous Liquidity:** 600+ AI personas already calibrated to eliminate player waiting times 24/7.
- ✓ Ultra-High Margins (95%+):** Cloud hosting costs less than \$100/mo. Every dollar in commission flows directly to EBITDA.

GAME ARCHITECTURE

10 Competitive Real-Time Multiplayer Games

Custom low-latency WebSocket infrastructure delivering authoritative 0ms move verification.

Chess
FIDE rules, premoves, blitz

Backgammon
Tawla 31 & Mahbousa

Dominoes
Draw & Block modes

Checkers
Classic 8x8 draughts

Connect Four
Vertical tactical drops

Reversi
Othello-style territory

Gomoku
Five-in-a-row board

Seega
Classic Egyptian strategy

Speed Math
Rapid arithmetic reflex

Tic-Tac-Toe
60-second lightning duel

 Proprietary Real-Time Capabilities

- ✓ **Authoritative Server Validation:**

Move decisions are checked server-side to prevent game-state tampering, memory hacks, or illegal plays.
- ✓ **Optimistic Client Predictions:**

0ms visual feedback on player actions gives an ultra-responsive native feel over high-latency connections.
- ✓ **Real-Time Spectator Mode (Live Arena):**

Live match streaming allows players and spectators to watch top-ranked ELO duels simultaneously.
- ✓ **Modular Plugin System:**

Adding an 11th or 12th game requires only writing the pure logic plugin; networking, matchmaking, and rating changes work automatically.

PLAYER MATCHMAKING & LIQUIDITY

600+ AI Liquidity Bots: Solving The Cold-Start

Multiplayer platforms die without immediate opponents. Nizalo guarantees instant matchmaking 24/7.

600+

CULTURALLY DIVERSE PERSONAS

Realistic personas spanning Arabic, European, Latin American, and Asian backgrounds with distinct avatars, bios, badges, and national affiliations.

1200 - 2600

CALIBRATED ELO DISTRIBUTION

Bot profiles feature mathematically coherent win/loss records matching their exact skill rating bracket (from casual 45% win rates to 72% Grandmaster champions).

< 3.0s

HUMANIZED THINKING LATENCY

AI moves are timed with natural, stochastic pauses (1.5s to 4.5s) to perfectly emulate authentic human contemplation without feeling scripted or robotic.

💡 Why This Is A Crucial Asset For The Acquirer

A new gaming business normally bleeds hundreds of thousands of dollars paying players to wait for matches. With Nizalo’s autonomous liquidity engine, every new user who registers or deposits can instantly jump into a cash duel or tournament bracket at 3:00 AM without feeling like the platform is empty. As real user volume scales, bot presence naturally steps down.

CASHIER & SETTLEMENT SYSTEM

Automated Crypto Rails & Multi-SIM Gateway

Built-in double-entry financial ledger designed for zero financial drift and automated global payouts.

💎 Automated USDT (TRC20) Crypto Rails

- ✓

Instant Web3
Cashier:

Seamless TRON (TRC20) USDT deposits and automated withdrawals powered by native OxaPay integration.
- ✓

Zero Balance Sheet
Risk:

All player funds are isolated. The operator is never exposed to crypto market volatility.
- ✓

AML 1x
Playthrough:

Built-in anti-money-laundering checks enforce legitimate gameplay before withdrawal clearance.
- ✓

Double-Entry
Ledger:

Every transaction, rake commission, and balance adjustment is recorded immutably with cryptographic auditing.

📱 Dual-Phone Multi-SIM Local Gateway

- ✓

Proprietary
Android APK:

Dedicated background service monitors local mobile money alerts (Vodafone Cash / InstaPay) and auto-credits balances in <1 second.
- ✓

4 Simultaneous SIM
Lines:

Multi-SIM failover architecture handles up to 240,000 EGP (\$5,000+) in daily local transaction volume.
- ✓

Zero Payment
Gateway Fees:

Direct mobile money integration bypasses 3-5% payment gateway fees, flowing 100% of profit directly to the house.
- ✓

One-Touch USSD
Payout:

Instant operator payout shortcuts transfer winning balances to players in seconds.

ENGAGEMENT ARCHITECTURE

Tournaments, Clan Warfare & Social Retention

Sticky social loops that transform one-time visitors into high-LTV competitive clans.

 Tournaments

Automated single-elimination tournament engine with bracket generation, automated seeding, countdown clocks, and instant prize distribution.

 Clan Warfare

Full clan system with custom clan tags, combined ELO rankings, dedicated clan chat channels, and competitive clan leaderboard seasons.

 Badges & Frames

40+ unlockable achievement badges, animated avatar borders, profile personalization, and daily login streak multipliers that drive DAU/MAU.

 Live Messaging

High-performance global chat rooms, localized regional channels, and secure 1-on-1 private direct messaging with privacy controls.

 Retention Impact On Unit Economics

Competitive social features increase Average Revenue Per User (ARPU) by 4.2x compared to standalone casual games. Players return daily to defend their clan rank and maintain active tournament streaks, creating organic referral loops.

TECHNOLOGY INFRASTRUCTURE

Production-Grade, Enterprise Tech Stack

Built with modern, maintainable TypeScript and Node.js microservices with zero technical debt.

⚡ Frontend & PWA

- ✓ Next.js 16 with Turbopack
- ✓ Full TypeScript type safety
- ✓ Zero-runtime CSS Modules
- ✓ 100% Responsive Mobile PWA
- ✓ 6-Language i18n Localization

⚙ Backend Microservices

- ✓ Modular Node.js Services
- ✓ Core REST API Service
- ✓ Low-Latency WebSocket Gateway
- ✓ Asynchronous Dispatch Worker
- ✓ Automated Cron Job Scheduler

🛡 Security & Database

- ✓ Supabase PostgreSQL + PgBouncer
- ✓ Cloudflare Enterprise WAF
- ✓ In-Memory IP Jail & Rate Limiting
- ✓ Multi-layer DDoS Mitigation
- ✓ Anti-Cheat Collusion Detection

Clean Git Architecture: Monorepo structure with automated migration scripts and 100+ unit test suite.

100% Test Pass Rate

BUSINESS MODEL

High-Margin Rake Economics: 95% Gross Margins

Platform rake model ensures consistent revenue scaling directly with transaction volume.

5% - 10%

MATCH RAKE FEE

Automatically deducted from the total prize pot of every completed P2P duel. Zero exposure to game outcomes.

10% - 15%

TOURNAMENT ENTRY COMMISSION

Retained fee on all scheduled and instant tournament entry ticket pools before awarding winner payouts.

8x - 14x

MONTHLY DEPOSIT TURNOVER

High capital velocity: a \$50 deposit is typically wagered 10-20 times, yielding \$35 - \$60 in cumulative platform rake.

💰 Revenue Projections Based On Traffic Scaling

METRIC	CONSERVATIVE STAGE	TARGET GROWTH STAGE	SCALED OPERATOR STAGE
Active Monthly Players	5,000 Players	25,000 Players	100,000 Players
Monthly Turnover Volume	\$250,000	\$1,500,000	\$6,500,000
Net Monthly Rake (7% Avg)	\$17,500 / mo	\$105,000 / mo	\$455,000 / mo
Server & Infrastructure Costs	\$80 / mo	\$250 / mo	\$850 / mo

MARKET REACH

6 Pre-Built Regional Languages & Global TAM

Architected for cross-border expansion across high-growth emerging and western markets.

SA Arabic (Native RTL)

Complete right-to-left layout and localized typography. Captures high-spending casual gaming demographics across Egypt, Saudi Arabia, and the Gulf.

GB English

Universal international standard for global skill gamers, crypto enthusiasts, and Western European esports audiences.

ES Spanish

Enables frictionless expansion into Latin America (LATAM) and Spain, one of the fastest-growing mobile esports regions globally.

FR French

Serves Francophone European and North/West African markets where skill gaming demand is experiencing double-digit growth.

IN Hindi

Direct entry into India's booming \$3.5B real-money skill gaming market with optimized casual game formats.

CN Chinese

Pre-translated interface for East Asian and diaspora communities with universal strategy titles like Gomoku and Chess.

ACQUISITION DELIVERABLES

Complete Asset Inventory: What You Acquire

A full 100% intellectual property, software, and infrastructure ownership handover.

📦 Included Core Intellectual Property

- ✓ **100% Codebase Ownership:** Full GitHub repository transfer with complete commit history, modular microservices, and game plugins.
- ✓ **Premium Domain Name:** Full ownership and registrar push of nizalo.com .
- ✓ **Production Database:** Complete PostgreSQL schema migrations, indexes, game logs, and pre-seeded database.
- ✓ **600+ AI Persona Assets:** Pre-calibrated database records with avatars, bios, and deterministic rating seeds.

🎨 Hardware Gateways & Brand Assets

- ✓ **Multi-SIM Gateway APK:** Android source code and compiled binaries for the automated 8080/InstaPay SMS payment capture engine.
- ✓ **Complete Brand Identity:** Vector logos (SVG, PNG), typography guides, color schemes, and social media assets.
- ✓ **Pitch Decks & Technical Documentation:** Investor presentations, platform architecture documentation, and deployment guides.
- ✓ **Hosting & Cloud Infrastructure:** Seamless transfer of Cloudflare and cloud hosting configurations.

⚖️ Clean Cap Table & Zero Liabilities

The asset is sold completely free and clear of all debts, third-party liens, external venture capital obligations, or royalty encumbrances. The founding developer is the sole legal and technical owner.

TRANSACTION STRUCTURE

Acquisition Terms & 30-Day Onboarding Support

Structured for maximum buyer confidence with safe milestone escrow protection.

\$300k

ASKING PRICE (USD)

All-cash asset acquisition or structured earnout milestone agreement.
Flexible terms available for qualified strategic operators.

Escrow

SECURE SETTLEMENT

Closing conducted via **Escrow.com** (or Acquire.com integrated escrow). Funds are securely held until all assets and code are verified.

30 Days

POST-SALE SUPPORT

Comprehensive technical onboarding, server migration support, and architecture walkthrough directly with the founding developer.

🔥 Onboarding Transition Scope Included

- Direct video/chat communication via Telegram, Slack, or Google Meet.
- Complete walkthrough of the Next.js, WebSocket gateway, and PostgreSQL microservices.
- Assistance with server configuration, Cloudflare setup, and domain DNS migration.
- Handover of OxaPay crypto merchant keys and withdrawal settlement scripts.
- Setup and configuration of the Android SMS receiver gateway APK.
- Ongoing technical advisory for the first 30 days post-closing.
